## HAMMOND'S Pocket Atlas of the World

THIS IS THE VERY LATEST ATLAS PUBLISHED AND IS CONSPICUOUS FOR ITS CLEARNESS AND ACCURACY

It contains a separate railroad map of each state and territory; maps of each of our insular possessions, and of every other portion of the globe, printed in colors from new plates. In the maps of our states and territories and of the provinces of Canada, railroads are named, and stations are shown, in a very complete

manner. These, and all other details, are brought down to as recent date as in any of the more expensive atlases. Alphabetically arranged lists of foreign and American cities give the latest population figures, including the United States Census of 1910 with the new enumeration of all states, counties and principal cities. This new work is beautifully printed in colors, on paper made especially for it, and is substantially bound. Contains over 250 pages, and measures, closed, 4 x 6 inches.
